

## ILA Hosts Community Gathering on New Development Site

**On April 24**, we gathered alongside community leaders, legislators, partners, families, and future residents on the very property where Independent Living Alliance will build a beautiful 40-unit apartment community. It was more than an event — it was a powerful moment of alignment, energy, and shared belief in what’s possible.

We were honored to hear remarks from State Representative Matt Koleszar and State Representative Ranjeev Puri, as well as members of the ILA Board and our valued partners, Special Olympics Michigan and Canton Therapeutic Recreation, a division of Canton Township Government.

Together, we shared a vision for what comes next: a hopeful future where individuals with disabilities have greater access to independence, dignity, community, and belonging.
